

Ted D Miller Associates Inc.

Water & Wastewater
Instrumentation Solutions

12081 West Alameda Parkway # 502
Lakewood, CO 80228

720-651-8110

sales@tdma-inc.com
www.tdma-inc.com

Online optical DO, SS, pH, and ORP analyzers for use in wastewater treatment plants
www.insiteig.com

Rosemount Measurement

Online instrumentation for pressure, level and temperature measurements.
www.emerson.com/en-us/automation/rosemount

Rosemount Flow - MicroMotion

Magnetic, differential pressure, vortex, and world-leading best performing MicroMotion Coriolis flow and density measurement devices
www.emerson.com/en-us/automation/measurement-instrumentation/flow-measurement

Sanitary Sewer data collection, remote sensing and alarming technology.
<https://smartcoversystems.com>

Fiberglass flumes, and buildings, enclosures, and metering manholes
<http://www.openchannelflow.com/>

Comprehensive line of digital display and control instrumentation
<https://www.predig.com>

Complete line of peristaltic and vacuum pump automatic water and wastewater samplers and open channel flow meters including the **Non-Contacting LaserFlow**.
www.teledyneisco.com

Streaming Current, Laboratory Charge Analyzers, Particle Counters, Reagent Free Disinfectant Analyzers, and Multiparameter Analyzers for water, wastewater and industrial applications.
<https://chemtrac.com/>

Portable and fixed, transit time, ultrasonic clamp on non-invasive liquid flow meters
www.clamponflow.com

Water test kits for drinking water, wastewater and process water, environmental and soil analysis products plus portable water quality laboratories
www.palintest.com

KELLER

Complete line of microprocessor-conditioned piezoresistive submersible level and pressure transmitters, gauges, and loggers
<https://kelleramerica.com/>

CORNCOB II Dynamic Membranes - Advanced membrane filtration system that moves the membranes and not the liquid resulting in significant cost savings, reduced application restraints.
www.corncobinc.com

PRO-Equipment

Screening, aeration, dewatering, sludge thickening equipment
www.proequipment.com

TDMA Service offering flow meter calibration and verification services and Isco instrument repair
jeremy@tdma-inc.com
